Subject: ACES and continuing investment

Just saw in today's paper that Conoco announced plans to spend 1 billion dollars on exploration and production in Alaska, nearly 22 percent more than the amount the company budgeted for Alaska investment in 2007. The week following ACES' passage Chevron announced an increase in capital spending for both new North Slope and Cook Inlet work.

Great thank you. I know it is long, but there is a lot of good stuff in there. If you need anything else, let me know. Karen and I will be on the flight in a couple of hours.

Governor:
I've attached a copy of the Word document with your remarks for Monday, with changes tracked as there are some small things that need some attention. I've pasted a few things here that should be changed.
Beth

Thanks so much- I'll get on to reading these asap. Love the title: Slow Govt Growth... that's got to be the silver lining in the increased budget message.

Governor – attached are talking points that Mike and I have been working on today along with two new charts for tomorrow. Beth, the charts are ready to go! There is also the 2-page fiscal summary – it will be one of the handouts that I will go over but too much for a chart! Let us know if you would like to walk through this information tomorrow. I fll be here early afternoon until I get on the plane! Karen

Subject: budget press conference

Governor,

Is there anything you need or anything Karen or I can do today? Sean emailed me about Privileged or and Russ had a few edits. Should I incorporate those into a new document and send you a revised version?

Also, we are going to send the charts out to the cabinet in a little while so they know what to expect tomorrow.

Mike
